1

Objectives and expected results

RIS3T is being delivered through a POCTEP (EP- INTERREG V A) project, IMPACT-RIS3T, *aiming to* implement the set of actions established in the cross-border RIS3 of Galicia – Norte of Portugal

EXPECTED RESULTS

The Strategy aims to align policies supporting innovation in the Euroregion and to boost innovation collaborative projects

PARTNERS

- GAIN (Galicia Innovation Agency)
- CCDR-N (Norte Portugal Regional Coordination and Development Commission)
- ANI (National Innovation Agency)

MAIN ASSETS

The implementation of S3 cross-border cooperation derives from main common assets identified after matching regional S3

Specialisation exercise takes into account *actual possibilities but also an evolving regional and international context* : **Regional RIS3 evaluations & new exercise**

Cross-border RIS3 actions are being delivered *simultaneously / in parallel* with already existing cross-border innovation initiatives

via other actions + actors + projects with which we are trying to connect to be more **effective** and **consistent**

2

Means of implementation

GOVERNANCE STRUCTURE

Steering Committee & Management team

WORKING GROUPS (WGs)

Thematic WGs *across*
RIS3T *priority areas*

6 Strategic
Collaboration
Areas

3 WGs

WGs COMPOSITION

Stakeholders from **Galicia & N Portugal innovation ecosystem**; i.e. enterprises, clusters, RTOs, research groups, representative associative bodies, and administration

MAIN FUNCTIONS

- Analysing the *state of the art* and **situation of their reference sectors**, proposing and **prioritising lines of action: surveys and meetings**
- Boosting **innovation projects** in the Euroregion, collaborating in brokerage events, workshops and training activities

SOME RESULTS

Monitoring results of RIS3T implementation were presented and a *participative process* started on the cross-border R&D&I priorities

PARTICIPATIVE PROCESS

This process gain particular relevance in the context of **the new programming period 2021-2027** and a **possible update** of the cross-border smart specialization strategy

Live debate in the context of the WGs meetings

Online surveys on the main monitoring results

HIGH RESPONSE

- **474 surveys** were sent (more than 100 per area)
- **191 were responded**, more massively in Industry and Mobility areas
- **Regional balance** within responses, considering population distribution (88 from Galicia and 103 from Norte)

INITIAL OUTCOMES

- First exercise and *initial contribution* for updating the strategy
- RIS3T strategic collaboration *areas remain all globally relevant*
- As a conclusion from the surveys and the analysis of main global trends *some adjustments* need to be done

MAIN PROPOSALS

- Increasing relevance of *sustainability and biodiversity* for all sectors, also in the framework of the **Green Deal** strategy and related priorities
- Singularity of *sea-related economy* and activity, e.g. energy from the sea
- Relevance of *digitalisation*, mainly but not only in the Industry and Mobility sectors, e.g. Healthcare and tourism

3

Main activities

EU WORKSHOPS

RIS3T training programme focused on the main *EU funding opportunities* for cross-border innovation and collaboration

Dec 2020

*Digital Europe Programme, DG CNECT & JRC
Green Deal, DG RTD & JRC*

Jan 2021

*Cascade funding, ECONET
Horizon Europe, CDTI & ANI*

March 2021

*European Technology Institute, EIT
Interregional Innovation Investments, DG REGIO*

May 2021

EEA Grants
